## Synopsis

In Paradise, nothing is what it seems... THE FORGOTTEN Army Special Agent John Puller is the best there is. A combat veteran, Puller is the man the U.S. Army relies on to investigate the toughest crimes facing the nation. Now he has a new case-but this time, the crime is personal: His aunt has been found dead in Paradise, Florida. A picture-perfect town on Florida's Gulf Coast, Paradise thrives on the wealthy tourists and retirees drawn to its gorgeous weather and beaches. The local police have ruled his aunt's death an unfortunate, tragic accident. But just before she died, she mailed a letter to Puller's father, telling him that beneath its beautiful veneer, Paradise is not all it seems to be. What Puller finds convinces him that his aunt's death was no accident . . . and that the palm trees and sandy beaches of Paradise may hide a conspiracy so shocking that some will go to unthinkable lengths to make sure the truth is never revealed.

## Customer Reviews

This is the second book in Baldacci's Reacher-like series featuring John Puller, a military cop. The Forgotten picks up from where Zero Day left off, but it's not necessary to have read that book previously. Whilst the events from that book are referred to occasionally, there are no spoilers given. When the book opens, Puller is contemplating returning to work after a brief vacation taken to recover from the events of Zero Day, when his father receives a worrying letter from Puller's Aunt Betsy, who lives in Paradise, Florida. She alludes to something dodgy going on and "mysterious happenings at night". Puller goes down to Florida to visit his aunt, but when he gets there he discovers that she has recently deceased, having drowned in her backyard in what the police have

decided was an accident. Given the letter she just wrote, Puller is not convinced it was an accident and starts to investigate further. Almost immediately it becomes apparent that there is more than meets the eye to the entire affair. At the same time, there is a mysterious man who has literally washed up in town. He has arrived on a mission, but we don't know what that mission is or whether he is going to turn out to be a villain or a hero. He is Puller's match in every way. The first half of the book develops slowly but maintains the intrigue as Puller pursues his investigations. In the second half things start to come together and the action builds. There are several twists along the way.

Now that *Oliver Stone and the Camel Club* are over, David Baldacci is looking for a key player for a new series. Welcome to Military Criminal Investigator, John Puller Jr, who some of you will have met first in *"Zero Day"*. Puller is basically a military policeman, over 6 feet tall, very athletic and powerful but with battle wounds from active service, great with weapons and a diligent and brilliant investigator. After the traumas of *"Zero Day"* Puller went off for some post stress R & R - "He had no map, no plan, no destination". Does all of this sound a bit familiar, a bit like Jack Reacher? Of course it does. We all love Jack Reacher but after so many iterations his adventures are getting a bit thin and repetitious. So let's see what Puller can offer. Firstly he is still in the military although this adventure starts out as a personal investigation. His aunt who raised him sent a letter saying "people are not being who they seemed". When Puller arrives in Florida he finds that she has been drowned in her back-yard fountain, which the police think is accidental. Puller he gets involved with the local police in trying to convince them that it was murder. Like *Zero Day*, a simple investigation quickly uncovers something far more sinister and dangerous. The finale is fast and furious escapist nonsense with a team of unlikely goodies, including some kick-ass females, taking care of almost a football team of nasty baddies. Did I enjoy it? Yes because I like Baldacci's page-turning style and characterisation, with well thought-out plot. Did I worry about the Jack Reacher similarity? Yes, because Baldacci should be able to create a new character without apparently having to plagiarize another one. What is my greatest concern?
