Customer Reviews

Amazing book. One of my favorites. A lot of pages and different designs. Some pages have multiple designs.

I've always enjoyed coloring; ever since I was a kid and it's been a rather long time since I've owned a coloring book NOT bought at a discount store. The details of most of the tattoos are great and all of the difficult parts of drawing a good tattoo (like shading and depth) are already taken care of in this book. The only "tough" part about this book (if I absolutely HAD to pick something) is the time it takes to color in everything. But the time and determination you have to put in; is absolutely worth it.

#MustBuy

I have to admit that I was hoping for a bit more in the way of unique designs, but I pretty much knew what this book would contain. I'm not sure that I will color all of these, but I can definitely see myself using certain designs, perhaps in a mod podge project for instance! By no means my favorite coloring book, but definitely lives up to the title: Tattoos. :)

My Twenty-one year old grandson is enjoying the book.

One of the better coloring books I've had

A lot of great drawings. Worth the money

Excellent adult doodling coloring book

The designs were not all that imaginative and the small ones leave little to color. Expected more from this book
