# A-Z Of Bird Portraits: In Acrylics

## **Synopsis**

Andrew Forkner's book provides you with all you need to paint a range of birds in acrylics; taking in birds of prey, songbirds and waterbirds from all over the world including Europe, the USA, Asia, the UK and Australia. It contains information on the materials and preparation you will need to capture the delicacy and majesty of the subjects.

## **Customer Reviews**

Great hardcover book with a multitude of instructions, tips and full color illustrations. I was not expecting this book so soon; However, it was delivered three days before the expected delivery date. It is really a great book for any bird watching enthusiast or any artist who paints birds, either novice or expert. I recommend this book

This book has everything a student could want to learn bird painting in acrylics. He even includes drawing to practice by. I will buy all the books he ever puts out. Video's too. I hope he will do the large Blue Heron and other large birds and a black Raven in his next book.

This book is a must have for your library if you are interested in painting birds. I hope that he will offer some video tutorials in the future to go with the book. He has an interesting technique for painting with acrylics that tempted me to move from watercolors to try a new medium. His techniques can be used to paint a lot more than just birds.

Beautiful portraits. Very enjoyable to page through. This was a gift for an 80 year old woman. She

loved it.

Beautiful paintings with easy step by step directions. I am enjoying this book.
