Part history, part cultural biography, and part literary mystery, The Orientalist traces the life of Lev Nussimbaum, a Jew who transformed himself into a Muslim prince and became a best-selling author in Nazi Germany. Born in 1905 to a wealthy family in the oil-boom city of Baku, at the edge of the czarist empire, Lev escaped the Russian Revolution in a camel caravan. He found refuge in Germany, where, writing under the names Essad Bey and Kurban Said, his remarkable books about Islam, desert adventures, and global revolution, became celebrated across fascist Europe. His enduring masterpiece, Ali and Nino—a story of love across ethnic and religious boundaries, published on the eve of the Holocaust—is still in print today. But Lev’s life grew wilder than his wildest stories. He married an international heiress who had no idea of his true identity until she divorced him in a tabloid scandal. His closest friend in New York, George Sylvester Viereck, a friend of both Freud’s and Einstein’s, was arrested as the leading Nazi agent in the United States. Lev was invited to be Mussolini’s official biographer until the Fascists discovered his identity. Under house arrest in the Amalfi cliff town of Positano, Lev wrote his last book “discovered in a half a dozen notebooks never before read by anyone helped by a mysterious half-German salon hostess, an Algerian weapons-smuggler, and the poet Ezra Pound. Tom Reiss spent five years tracking down secret police records, love letters, diaries, and the deathbed notebooks. Beginning with a yearlong investigation for The New Yorker, he pursued Lev’s story across ten countries and found himself caught up in encounters as dramatic and surreal, and sometimes as heartbreaking, as his subject’s life. Reiss’s quest for the truth buffets him from one weird character to the next: from the last heir of the Ottoman throne to a rock opera-composing baroness in an Austrian castle, to an aging starlet in a Hollywood bungalow full of cats and turtles. As he tracks down the pieces of Lev Nussimbaum’s deliberately obscured life, Reiss discovers a series of shadowy worlds of European pan-Islamists, nihilist assassins, anti-Nazi book smugglers, Baku oil barons, Jewish Orientalists that have also been forgotten. The result is a thoroughly unexpected picture of the twentieth century of the origins of our ideas about race and religious self-definition, and of the roots of modern fanaticism and terrorism. Written with grace and infused with wonder, The Orientalist is an astonishing book. From the Hardcover edition.

Fantastic in both senses of the word, this biography of Kurban Said—or should I say Essad Bey or Lev Nussimbaum—\textemdash is impossible to put down. The book’s subtitle is “Solving the Mystery of a Strange and Dangerous Life,” but fortunately much of the subject’s life remains tantalizingly unexplained. Author Tom Riess does a masterly job following Lev's trail, but how nice it is to know that even with the marvels of the internet, the hard work of a very dedicated writer, and the discovery of deathbed papers, so many details of a life lived completely in the 20th century and in the spotlight on several continents can remain a mystery. So who is this book about? As Kurban Said, he was perhaps the author of "Ali and Nino," the story of love between a Muslim boy and a Christian girl set in the central Asian city of Baku just before the Russian Revolution. It has never been out of print since its publication in the 1930s and remains very popular in any number of languages. As Essad Bey he was the author of biographies of Stalin and Nicholas II and a book on the Azerbaijani oil industry. He was invited to be Mussolini’s official biographer. His socialite wife claimed not to know who he really was, and their divorce made the tabloids. As Lev Nussimbaum he spent his life fleeing one hideous revolution after another, but still managed to die of natural causes. You couldn’t make this stuff up. Reiss is a fluid, vivid writer who captures the mystery, excitement, and plain oddness of this subject’s life. He places Lev’s story (he calls his subject Lev) brilliantly within its historic context, and his depiction of the Russian revolution in central Asia is terrific.
