Projects include brightly coloured stepping stones in azure and turquoise for the garden, rich red blood and grass green highly glazed ceramic tesserae combine in a delicate lattice design to make a skirting board. An elaborate table top using brightly coloured glass pieces, and a mirror frame in midnight blue and gold glass are also featured.

## Customer Reviews

The mosaic designs in this book are beautiful! It is packed with ideas for the designer hoping to add Moroccan flare! From tiling to painting you will be able to add a little style to walls, floors, plates, etc... A thorough instruction of Moroccan Mosaic Design Definately worth the price!

Well laid out book with real life size pattern sheets included. Nice selection of projects, great photographs - definitely worth it! I especially liked the Morrocan mirror and the table top patterns. I would mention though that these are not your usual ten to 60 minute projects that can be quickly thrown together. With few exceptions, these projects are meant for intermediate to advanced skilled

mosaic professionals. I've drawn inspiration from this book using its ideas for simpler projects, but one day I will tackle one of those cool table tops.
