Customer Reviews

Best financial book ever read - explains what I didn't know - which covers a lot of territory - in layman's terms. I bought one for my son who is at the age to start using the tips Al Zdenek puts in terms easy to understand and use. Best financial/retirement book I've read, and am using it. Mr. Zdenek knows his business and his advice is invaluable.

Our family has worked with Al since 2008. We were introduced by a very good friend, who has since happily retired based on following Al's plan. We had had a set of very impersonal advisors, and

when I remarried at 50, my wife wanted to find someone who would offer more personalized, broad-ranging support around our particular goals and needs. We have found him to be extraordinary to work with--we have gone through leaving a corporate CEO job, taking a break from business to teach at Harvard Business School, starting and exiting a new company, shifting our real estate for long-term family holdings, and welcoming grandkids into the family. Through all of the normal ups and downs of life and the markets, Al is a true partner, always watching out for our interests and working with us to adjust plans. He is also very good at taxes for people who always want to be on the right side of all tax law, but don't want to unnecessarily hand money to the IRS. Most of all, it seems like he cares about our family and cares about our outcomes. MY wife and I both enjoyed the book--and recommend it for couples to provide a common language and approach. I have given a copy to all of my adult children for the same reason. I usually hate books like this, but this one is clear, fast, and to the point.

Al's book properly points out that building wealth is a life long pursuit. It requires an objective, a plan, and execution. Al shows how to achieve all these. He also offers some well-considered advice on building a team of advisors. John Staten, entrepreneur

The author of this book lays out some very smart and interesting points. Making this book a life changing read. I strongly recommend this as a read. Read on the beach but make notes.
