Blood And Fire

Synopsis

The autobiography of the UB40 brothers is the story of growing up in the 1960s to the sounds of Motown and ska, folk music and radical politics and â ” most importantly â ” the new and infectious sound of reggae that was to captivate these two kids from the Midlands.From the Trade Paperback edition.

Customer Reviews

Okay. Fairly well-written, but it was hard to follow at times because of the heavy use of British slang. Kind of a let down how much drug and alcohol addiction plays into UB40, and mainly Ali. Seems there's still lots of denial around it, and it's strange how they can be so morally superior with their political positions while at the same time being so fundamentally unable to function in their own relationships at home. It was a valuable book, regardless, and one that helped give good insight into what it was like being in the world's biggest Reggae band. It brought them both off of the pedestal and back into the fallible masses.

Love the book, just kind of sad that the brother now don't talk to each other, but other than that it was a great book to read. It would be nice if they would write another one about there life now what has happen to then now, why Ali left the group after so long. I would buy that book too!
