# A Walk Across America

## Synopsis

Twenty-five years ago, a disillusioned young man set out on a walk across America. This is the book he wrote about that journey -- a classic account of the reawakening of his faith in himself and his country. "I started out searching for myself and my country," Peter Jenkins writes, "and found both." In this timeless classic, Jenkins describes how disillusionment with society in the 1970s drove him out onto the road on a walk across America. His experiences remain as sharp and telling today as they were twenty-five years ago -- from the timeless secrets of life, learned from a mountain-dwelling hermit, to the stir he caused by staying with a black family in North Carolina, to his hours of intense labor in Southern mills. Many, many miles later, he learned lessons about his country and himself that resonate to this day -- and will inspire a new generation to get out, hit the road and explore.

## Customer Reviews

I have been using *A Walk Across America*, by Peter Jenkins as a required reading for over ten years, in The Lifestyle Enhancement class I instruct at Southeast Missouri State University. I also require: *Tuesday's With Maurie*. These two exemplary accounts of life and its meaning and purpose, serve as a primary source of motivation for the seventy five behavior change projects each student must engage in each semester. At the conclusion of each semester I ask the over 100 students enrolled in all three sections, if I should reduce the required readings, by eliminating either book? The answer is an emphatic, no! I have included some comments from students presently enrolled in the class. "This book definitely affected me in a positive way. I believe that I always look for the

deeper meaning in things, and this book had a pretty obvious one. In a time period where everything is getting ready to change for me (I am graduating in May, moving, and starting a career), it made me realize that other people are scared too, and that you can be successful even if you are afraid and unsure now". "Reading this book has made me think more about the decisions I've made in the past and now. I believe that my life is somewhat like Peter's life was before he decided to "walk". I have done, and still do a lot of things that other people expect of me. Don't get me wrong they are all beneficial things, but they are done for the wrong reasons. Things I do, choices I make should be for me, not for one that wishes they could've live their own life in a different way. I admire the fact that peter just decided that he was going to "walk" his life out. He now could have some control over the problems he faced and how he would, himself, solve them".
